

Keep up to date with SPELL-X-BIO™

Bioscience professionals know that new biotechnology and pharmaceutical terms are introduced DAILY--*new drug names, new procedures, new instruments, new medications, new equipment, new techniques, new research terms, new laboratory tests, ...the list is endless!* Many of these terms won't be found in your favorite references for years...if at all!

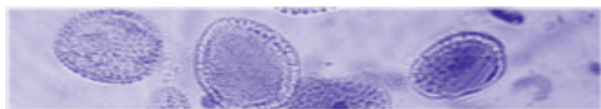

With the **SPELL-X+BIO™** quarterly software updates, you can easily keep your Microsoft, WordPerfect, or Lotus speller up to date with the newest words in bioscience! *No other speller brings you this exciting option!*

Bioscience Spelling Power!

Spellex Biotech is a comprehensive spell checking solution for the biotechnology field covering Molecular Biology, Biotechnology, Biomedicine, General Biology, General Chemistry, Organic Chemistry, Bioinformatics, Biochemistry, Biophysics, Botany, Microbiology, Cell Biology, Molecular Genetics, the Life Sciences, and dozens of other disciplines.

Spellex Biotech also encompasses new and standard terminology for biochemical substances, compounds, structures, activities, concepts and processes, and includes hundreds of pertinent abbreviations and acronyms, as well as organizations that are useful to biochemical and molecular biologists.

Spellex Biotech even includes terms relating to Ecology, Limnology, Pharmacology and Toxicology and also encompasses medically and biotechnologically relevant organisms.

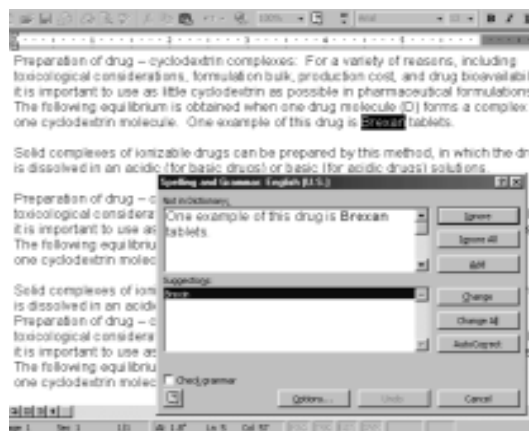

Pharmaceutical Spelling Power!

The new *Spellex Pharmaceutical* contains thousands of terms from the most authoritative and definitive sources of pharmaceutical terminology, and includes both OTC and prescription pharmaceuticals. This comprehensive speller includes generic and trade drug names, orphan drugs, investigational drugs, chemotherapy drugs, drug protocols, Latin and Greek terms, pharmaceutical manufacturers, drug distributors, and more. Scores of new medications such as *Rapamune, Keppra, and Aggrenox* are also included.

Spellex Pharmaceutical v11 covers pharmacologic-therapeutic classifications including anesthetics, antihistamine drugs, anti-infective agents, antineoplastic agents, autonomic drugs, cardiovascular drugs, central nervous system agents, dental agents, diagnostic agents, enzymes, gastrointestinal drugs, hormones, oxytocics, serums, vaccines, vitamins, and more!

The Spellex Guarantee!

Try any Spellex software program without risk or obligation for a full 30 days. If for any reason whatsoever you are not 100% satisfied, simply return it to us for a full refund.
